Facebook swift App

Usage

This Ios app allows users to search for Facebook accounts. By using a variety of keywords or types, this application presents a set of informations from target accounts.
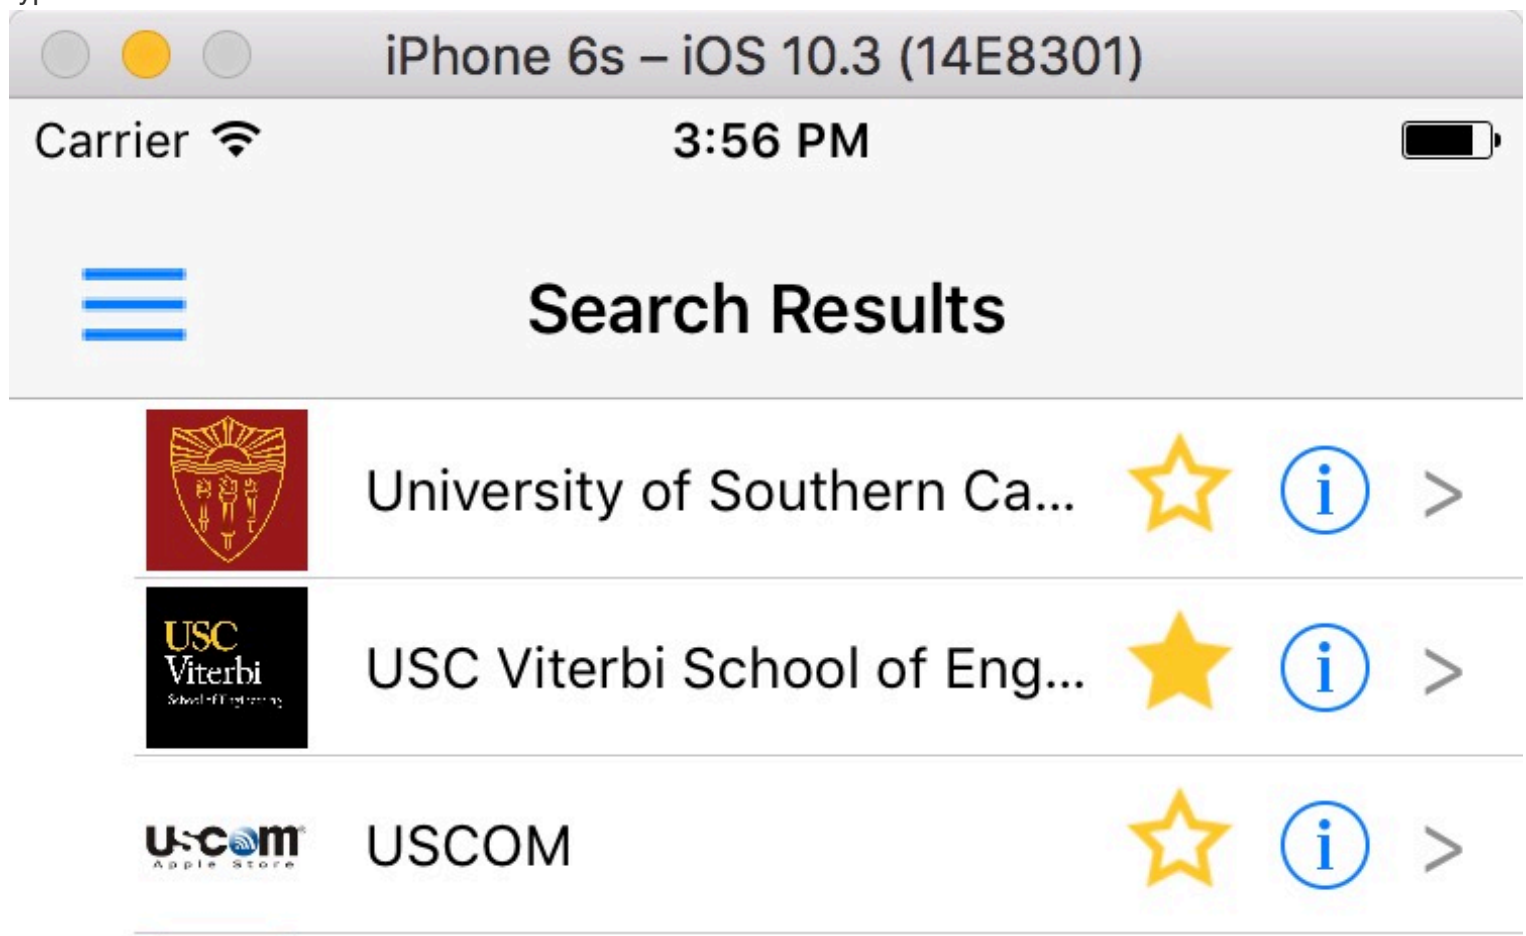

1 homepage

This is the homepage of this app, you can input any keyword you like. [?] The top-left hamburger button allows you slide this page left. In addition, the user-friendly design allows users to use fingure to slide out as well. [?]

2 Result page

This is the searching result page. The different navigating button in the bottom presents results of different quering types.

|				
USC AIKEN	USC Aiken	☆	ⓘ	>
USCCA	USCCA	☆	ⓘ	>
USC	USC	☆	ⓘ	>
	USC Colosium	☆	ⓘ	>
	Ušće	☆	ⓘ	>
USC School of Cinematic Arts	USC School of Cinematic...	☆	ⓘ	>
USC £30/MONTH	USC GYM	☆	ⓘ	>

The filled star means you have favorited this account already and empty refers to not. The favorites can be found in favorite page. If you click any row of the result page, you will get the detailed information of this certain account. However, due to privacy, you aren't able to access to any accounts if you don't have permit.

3 Detail page

The detail page shows details of a selected account. The Facebook APIs provide two different details: albums and posts. The bottom two buttons perform those two details respectively.
